

What's New. Medicare-Provider Enrollment Revalidation: Cycle 2

The Medicare Revalidation process is underway and Wittman Enterprises is committed to actively helping our clients through the entire process. Below is information on the "why, when, what, and where" of the program.

Why must I revalidate?

Section 6401(a) of the Affordable Care Act requires all existing provider/suppliers to be revalidated under new screening requirements and reinforces the revalidation requirements of 42CFR 424.515.

When must I revalidate?

Revalidations will be due on the last day of the month assigned to you by your MAC (CMS) (i.e.: June 30, 2016). We monitor regularly CMS's website [**Data.CMS.gov/revalidation**](http://Data.CMS.gov/revalidation) and will notify you of your revalidation due date as soon as it is listed. In general your MAC:

- Will send a revalidation notice within 2-3 months prior to your revalidation due date. The letters are coming in in a bright neon green envelope.
- Will identify organizations to which individual providers reassign benefits
- Will Send to email addresses reported on your prior applications
- Will Send via postal mail to at least two of your reported addresses
 - Correspondence address
 - Special Payments address
 - Your primary practice address
- Due Dates are updated every 60 days at the beginning of the month and listed up to 6 months in advance
- Due Dates that are not yet assigned will be listed as TBD – To Be Determined
- Do not submit a revalidation if:
 - You have not received an email/mailed letter from your MAC requesting you to revalidate
 - Due date is not listed on data.CMS.gov/revalidation
- Unsolicited revalidations will be returned

What does revalidating entail?

Wittman will be with you every step of the way through the revalidation process. Once you have been identified as having to revalidate, Wittman will send you an email with your options to revalidate using PECOS or via paper and work with you to complete and submit the revalidation application packet by the CMS-assigned deadline.

What happens if I don't revalidate?

A complete revalidation application must be submitted by your due date in order to avoid:

- Possible hold on your Medicare payment
- Deactivation of your Medicare billing privileges

Deactivated providers will be required to submit a complete application to reactivate their enrollment

- Will maintain their original PTAN
- Reactivation date will be date of receipt of new complete application
- No payments will be made for the period of deactivation
